QC Holdings, Inc. Reports Third Quarter 2019 Results

OVERLAND PARK, KS (December 3, 2019) – QC Holdings, Inc. (OTC PINK: QCCO) reported a net loss of \$4.0 million and revenues of \$85.1 million for the nine months ended September 30, 2019. Net loss totaled \$5.3 million and revenues totaled \$73.8 million for the nine months ended September 30, 2018.

The 15% improvement in revenues during the first nine months of 2019 compared to 2018 was primarily attributable to an acceleration of installment loan revenues. Over the last two years, installment loan originations and volumes have increased as a result of both new and returning customers opting for an installment product instead of a single-pay product. The company's installment loans generally earn a lower yield on a higher principal amount over a term of four to 12 months compared to the typical two-week single-pay loan.

Loan loss rates increased during the nine months ended September 30, 2019 compared to 2018 as a result of the increase in installment loan originations, which have historically averaged higher loss rates than the single-pay product. The increase in operating expenses period-to-period is largely attributable to higher depreciation and data costs associated with the launch of a new point of sale system, as well as higher marketing costs.
